

INTRODUCING OUR NEW POOL

YOUR UPGRADED SUMMER SWIM EXPERIENCE HAS ARRIVED!

FREQUENTLY ASKED QUESTIONS

Where will my child be swimming this summer?

Campers will swim at our stunning aquatics facility, just a "stones throw" away (approximately 5 minutes) from Devon Prep's campus, at the Mary Robin Brigham Aquatic Center located at 139 Leopard Road in Berwyn, PA.

Who will be running the Aquatics Program?

Our NEW Summer Aquatics Program will be led by our veteran Aquatics Directors, Mike Yarosewick & Natalie Walton, as well as the amazing aquatics team! All Aquatics Team members (Lifeguards & Instructors) are certified lifeguards from American Red-Cross.

Will ESF have exclusive use of the Mary Robin Brigham Aquatic Center?

Yes, our efforts have ensured that our indoor, heated pool will be fully exclusive for ESF campers this summer. This means more pool time than ever! Campers will arrive and depart our exclusive pool through a private, secured entrance/exit. The Aquatics Team will greet campers at the door upon arrival.

How will my child get to and from the pool each day?

"Going to the pool" will be the highlight of each day for our campers! It all begins with your child's group and their counselors taking a less than 5-minute ride on the ESF bus, which is fully equipped with seat belts.

Where will my child change for swimming?

Campers will have access to our exclusive locker rooms at Mary Robin Brigham Aquatics Center, for privacy during changing. Campers will be supervised at all times.

Tell me more about ESF Swimming Program.

Catering to all skill levels, our experienced staff are prepared and trained to deliver our higher standard of quality and individualized attention for your child's swimming experience. We offer a low instructor to camper ratio (1-3). Beginning with water safety skills and basic fundamentals for our beginners (Level A Seahorse), campers will move through progressive stroke development and refinement of techniques, all the way to our advanced swim level (Level 7 Dolphin). At the beginning of each week, the Aquatics Directors will evaluate and group each child based on their swimming ability through an initial skills assessment. Campers will then be placed into groups with children of similar skill levels for instructional swim. At the end of each week, you will receive a progress report.
